

Myles Sunley

MSc FCII MIET

Overview

Myles is approaching thirty years of handling Insurance claims. He has long been established in the Energy market and his experience includes a high degree of exposure to offshore construction claims, in particular the WELCAR wording. He has also managed onshore Energy claims and construction, including a high level of exposure to EAR and CAR claims. His experience includes handling a large number of complex, high-quantum claims, reaching successful conclusions through a high degree of interaction with brokers and insureds to address and resolve technical engineering and insurance issues.

Career Summary

Myles has worked in claims roles for both the Company and Lloyd's insurance markets for a number of leading companies:

Royal & SunAlliance

- including a three-year secondment to the USA.

Hiscox

- Claims Underwriter

QBE (Syndicate 1036)

- Senior Claims Adjuster

Marketform/Neon

- Head of Marine Claims

Markel

- Deputy Claims Manager, Marine and Energy Claims

Aspen
